

The logo for Carnegie Mellon University Qatar, featuring the university's name in a white serif font on a red rectangular background. The background of the entire page is a light-colored wood-grain wall with a central vertical strip of decorative glass panels. The glass panels are framed in dark metal and contain a geometric pattern of triangles and squares in shades of brown and gold. On the left side, a blurred figure of a person is walking past a recessed light fixture.

**Annual Report
2023-2024**

The image is a wide-angle photograph of a modern university campus. In the foreground, there is a paved walkway lined with several tall palm trees. In the background, there are several large, light-colored buildings with modern architectural features, including a prominent white building with a grid-like facade. The sky is a clear, bright blue with a few wispy clouds. The overall scene is bright and sunny, suggesting a clear day.

Annual Report 2023-2024

Acknowledgments

In 2004, Carnegie Mellon and Qatar Foundation began a partnership to deliver select programs that will contribute to the long-term development of Qatar. For nearly two decades, we have shared a mission: to provide a world-class education to students in Qatar.

Carnegie Mellon University in Qatar thanks **His Highness Sheikh Tamim Bin Hamad Al Thani**, Amir of the State of Qatar, for his leadership and commitment to progress and education.

We also express our deep appreciation to **His Highness the Father Amir Sheikh Hamad Bin Khalifa Al Thani**, **Her Highness Sheikha Moza bint Nasser**, Chairperson of Qatar Foundation, and **Her Excellency Sheikha Hind bint Hamad Al Thani**, Vice Chairperson and CEO of Qatar Foundation, for their vision and leadership.

We are Carnegie Mellon

Our Vision

Carnegie Mellon University will have a transformative impact on society through continual innovation in education, research, creativity and entrepreneurship.

Our Mission

To create a transformative educational experience for students focused on deep disciplinary knowledge; problem-solving; leadership, communication and interpersonal skills; and personal health and well-being.

To cultivate a transformative university community committed to:

- a. attracting and retaining diverse, world-class talent;
- b. creating a collaborative environment open to the free exchange of ideas, where research, creativity, innovation and entrepreneurship can flourish; and
- c. ensuring individuals can achieve their full potential.

To impact society in a transformative way—regionally, nationally and globally—by engaging with partners outside the traditional borders of the university campus.

Remembering Jared L. Cohon

Jared L. Cohon, the eighth president of Carnegie Mellon University, passed away in March 2024. Dr. Cohon was a visionary leader who believed that Carnegie Mellon's culture of collaboration could extend beyond its Pittsburgh campus. He embraced the vision for Education City, and under his leadership, CMU-Q became Carnegie Mellon's first international undergraduate campus.

From the President

For the last 20 years, Carnegie Mellon University in Qatar has helped to advance the university's globally inclusive mission to create and leverage knowledge for society's gain.

Today, this mission continues: CMU-Q trains some of the world's greatest talents, with a student population spanning more than 450 students from 61 countries. Their areas of study—biological sciences, business administration, computer science, and information systems—will position these students to excel as global leaders and citizens in today's information-based economy.

The events and accomplishments that CMU-Q recorded over the most recent academic year are a testament to this momentum and outlined in the pages that follow. Some of the year's many highlights include:

- Taking their learning abroad, with 84 CMU-Q students spending a semester on our Pittsburgh campus, or in the Washington Semester Program
- Continuing important initiatives like the Technology Consulting in the Global Community program
- Making the most of spring break, with students from two campuses participating in IMPAQT: Initiating Meaningful Pittsburgh and Qatar Ties
- Hosting micro courses, which allow CMU-Q students to engage in topics—including building AI products, health psychology, and art and design—that fall outside their standard course offerings
- Celebrating the academic accomplishments of 120 members of the Class of 2024—our largest graduating class yet—and growing the total number of CMU-Q alumni to more than 1,300 Tartans worldwide

These milestones—and CMU's overall success in Qatar—is only possible thanks to the steadfast support of the Qatar Foundation. CMU remains deeply grateful for the founding vision and partnership of **His Highness the Father Amir Sheikh Hamad Bin Khalifa Al Thani**, **Her Highness Sheikha Moza bint Nasser**, and **Her Excellency Sheikha Hind bint Hamad Al Thani**.

I hope that you enjoy learning more about our CMU-Q community in this annual report, and that this review leaves you inspired and in awe of all that we have accomplished together. I am excited to build on this incredible foundation and see how CMU-Q will continue to contribute to our global Carnegie Mellon community in the year to come.

Farnam Jahanian

President, Carnegie Mellon University

From the Dean

Welcome to Carnegie Mellon University in Qatar's *Annual Report, 2023-24*.

This past year was a milestone for CMU-Q: it was the 20th year that our campus has been open. As I reflect on the achievements of last year, I am filled with a profound sense of gratitude and pride for the incredible community we have created over the past two decades. From a small startup campus with only 41 students, we have grown into a multifaceted community of learners, experts, innovators and creators.

Within the *Annual Report 2023-24*, you will find our key accomplishments and achievements throughout the year. Our students, alumni, faculty and staff have made a tremendous impact over the last year, finding success both within the university and in the wider community. As our alumni network continues to grow, this impact will only continue to expand and become more profound.

The 20th year milestone is also an opportunity to look to the future. Our faculty members are an amazing source of expertise and innovation. Across all disciplines, they are finding new ways to enhance learning in the era of artificial intelligence. They use their knowledge to investigate the many facets of equity and sustainability. They prepare their students to be adaptable and to reach across disciplines to find unique solutions to the questions that face the world.

CMU-Q thrives because of the continued partnership between Carnegie Mellon and Qatar Foundation. We are grounded by the core mission of the global Carnegie Mellon community: to have a transformative impact on the world through education and research. We are inspired by Qatar Foundation and the partner universities in Education City, who share the vision of the transformative effect of education on individuals, communities, and societies. This collaboration continues to deepen, and I am excited to see how it develops over the next decades.

I invite you to explore the milestones of the last year and learn more about how CMU-Q is shaping the future through education, research, and innovation.

Michael Trick

Dean, Carnegie Mellon University in Qatar

Our Alumni

For each student, graduation marks the end of the undergraduate journey and the start of a new era within the Carnegie Mellon alumni network.

Class of 2024

In May, the CMU-Q community celebrated the graduation of our largest class in campus history.

Achievement and Impact

In Qatar and around the world, CMU-Q alumni are making an impact.

Qatar Museums leadership

Sheikha Amna bint Abdulaziz Al Thani (BA 2008) was appointed Chief of Museum and Heritage Development at Qatar Museums.

Forbes Middle East 30 Under 30

Sanjeet Sahni (BA 2017) made the Forbes Middle East “30 Under 30” list for 2023. Sahni is co-founder of Swing Capital, a venture capital firm that helps entrepreneurs in the sports, media, and lifestyle sectors.

Winner, Three Minute Thesis

Maher Khan (CS 2017 and IS 2017) won first place in the Three Minute Thesis school-level competition at University of Pittsburgh School of Computing and Information. His research delved into the world of intrusion tolerance in distributed systems.

Tartans on the Rise 2024

Musab Popatia (CS 2016), **Rukhsar Neyaz** (CS 2015), and **Sabih Bin Wasi** (CS 2015) were recognized by Carnegie Mellon on the *Tartans on the Rise* list of notable alumni for 2024. The three alums created Stellic, a degree management tool now used in 70 colleges and universities worldwide.

Musab Popatia

Rukhsar Neyaz

Sabih Bin Wasi

UNESCO advisory committee

Nasser Al-Khori (BA 2012) was appointed to the first advisory committee of the UNESCO Chair on Governance and Social Responsibility in Sport. Al-Khori is the executive director of Generation Amazing Foundation, an initiative that uses football as a catalyst for social change, education and empowerment.

Double victory at Al Shaqab

Maryam Al-Semaitt (BA 2011) secured first place on both days of the CHI International Show's Advanced Medium National Dressage class at Al Shaqab.

2023 IMPART Artist Grant Exhibition

Farjana Salahuddin (IS 2017) was selected for the IMPART Artists Grant Exhibition. Her art installations explored the intersection between technology and the arts.

Apple Scholar

Omar Khattab (CS 2019) was named an Apple Scholar in artificial intelligence/machine learning. Khattab is completing his PhD at Stanford University.

Cricket World Cup champion

Urmila Rosario (BA 2010) managed the Australian team that won the ICC Men's Cricket World Cup. Rosario also manages the Australian women's cricket team.

Gold medal, Seoul International Invention Fair

Mohammed Al-Qassabi (IS 2022) won four awards at the Seoul International Invention Fair (SIIF) 2023, including the gold medal, the best invention award by the Korea Institute of Patent Information, the Singapore innovation award, and the GCC Patent Office shield.

Alumni Connections

CMU-Q graduates maintain a strong connection to the university, and to Education City, sharing their experiences with students and making new connections in the alumni community.

1-5-10 Year Reunion

The classes of 2013, 2018 and 2022 gathered to reconnect with their classmates and faculty members to meet alumni from other years.

Alumni Senior Ghabqa

The CMU-Q alumni network gathered to welcome the Class of 2024 at a Ramadan event. Nearly 200 people came together to forge connections and celebrate the growing alumni community.

CMUiverse

CMU-Q introduced the campus to CMUiverse, a mentoring platform to connect students and new graduates with alumni around the world.

Summer College Preview Program

Ward Ayan (CS 2023), **Zenab Siddig** (BS 2021), **Dina Abdelazeem** (BA 2021) and **Đorđe Popović** (CS 2022) served as course instructors for the 2023 Summer College Preview Program for high school students.

Alumni-faculty gathering

Dozens of alumni gathered to reconnect with former faculty members **Alex Wilcox Cheek** (CFA 2009) and **Crista Crittenden** (DC 2013), who are themselves CMU alumni.

Our Students

Our student community is at the heart of everything we do at Carnegie Mellon University in Qatar. During the admission cycle each year, we seek out applicants who are motivated and eager to learn. Together, our enrolled students form a global-minded community that is enthusiastic, encouraging and supportive.

Our Student Community

CMU-Q students come from remarkably diverse backgrounds, and they possess a wide spectrum of interests, talents and aspirations. Together they form a vibrant and supportive learning community.

Students enrolled, by program

Financial aid

Financial aid options are essential in building a diverse, competitive and strong CMU-Q community.

Financial support options

- Amiri scholarship, Ministry of Education and Higher Education
- Sponsorship from a national organization
- Qatar Foundation need-based grant
- Qatar Foundation financial aid
- Qatar Foundation scholarship
- Carnegie Mellon University in Qatar scholarship
- FAFSA loans for U.S. citizens

Organizations that sponsored CMU-Q students

- Alfardan Group
- Amiri Diwan
- Aspire Zone
- ExxonMobil
- Kuwait Embassy
- Ministry of Education and Higher Education
- Ministry of Interior
- Ooredoo
- Qatar Airways
- Qatar Armed Forces
- Qatar Central Bank
- QatarEnergy
- Qatar Foundation
- Qatar National Bank

The Admission Process

Each applicant to CMU-Q is considered holistically: we look for academic excellence, special interests, leadership qualities, and a motivation to learn. Through this process, we select a diverse, talented group of students each year who will support and challenge one another.

Experience CMU-Q

Welcoming the Class of 2027

The Class of 2027 includes 119 students who were officially welcomed to the university at a formal convocation ceremony. The ceremony capped off a week of orientation activities for the new students to learn about the people and resources at CMU-Q.

Recruiting the Class of 2028

Application numbers rose by 18% to a record high, with more than 2,800 students applying for 115 spaces in the first-year class. The admitted class includes many students who have won notable national awards, and many are among the very best students in their respective countries.

Pre-college opportunities

Throughout the year, CMU-Q offers opportunities to high school students to explore the disciplines we teach. In the summer, students learn about university life during the three-week Summer College Preview Program. Once each semester, students can take a one-day workshop to explore our programs.

For many of these students, pre-college programs lead to an interest in biological sciences, business administration, computer science, information systems, or mathematics, and many go on to attend CMU-Q as undergraduates.

Opportunities for high school students

Academics

The Carnegie Mellon approach to education supports and challenges students throughout their undergraduate years. We prepare students to solve creatively, think analytically, create value thoughtfully and make decisions ethically.

Academics at CMU-Q

At Carnegie Mellon, students begin with a broad introduction to their major and a foundation in the arts and sciences. In their middle semesters, students focus on major core classes, and they deepen their understanding in the last semesters through advanced electives.

302 courses offered over 3 semesters

New AI+X certificate

CMU-Q introduced the first AI+X certificate to encourage students to apply artificial intelligence fundamentals within different disciplines. The certificate combines foundational courses in AI and a second discipline, culminating in a capstone project. The AI+Finance certificate was the first to launch in Spring 2024.

Pilot of Core@CM

In Fall 2023, the Qatar campus piloted the new Core@CM course that will be rolled out to all Carnegie Mellon first year students in 2024. The course is part of CMU's Core Competencies initiative to develop student skills in communication and presentation, collaboration and teamwork, information and data literacy, and intercultural and global learning.

Summer experiential learning

During the summer of 2023, global learning opportunities provided 30 students with immersive experiences to learn languages, acquire entrepreneurial and consulting skills, or engage in research experiences.

- Technology Consulting in the Global Community (TCinGC) in Palau, India and Ghana
- Language summer programs in Jordan, Spain, Costa Rica, and China
- European Innovation Academy in Portugal
- Mellon College Summer Research Institute in Pittsburgh

Study abroad

There were 82 CMU-Q students who participated in campus exchange to Pittsburgh. Five students explored other study abroad opportunities, including Yonsei University in Korea, Kings College in the UK, and CMU's Washington Semester program in Washington, D.C.

Faculty

CMU-Q faculty members are educators, researchers, and experts in their fields. They provide individualized attention and focused instruction so all students can reach their potential.

Frontiers in Immunology article

Senior student **Adel Fergatova** published an in-depth review of how cancer cells and fibroblasts interact within the tumor microenvironment, a project that was advised by **Nesrine Affara**. The article was published by *Frontiers in Immunology*, a leading international peer-reviewed journal.

UK Interdisciplinary Breast Cancer Symposium

Two graduating seniors, **Hana Hasna** and **Fiza Tarlochan**, presented their research findings at the UK Interdisciplinary Breast Cancer Symposium. Hasna and Tarlochan were the only two undergraduates with posters accepted to the biennial conference. **Ihab Younis** served as faculty advisor for both projects.

Sidra Young Scientist Symposium

Aziza Abugaliyeva, **Nada Alnajjar**, and **Mariam Elmeragawi** presented their summer research at Sidra Medicine's Young Scientists Symposium. The students used computational biology to identify disease biomarkers. Abugaliyeva went on to publish her work in *Brain Disorders*. **Saad Rasool** (BS 2018) served as advisor.

GAITAR Fellowship

Nimer Murshid received a GAITAR Fellowship to investigate if Generative AI tools can deepen learning in an elective chemistry course for non-majors. The Generative Artificial Intelligence Teaching as Research Initiative measures the impacts of these tools on educational experiences at CMU.

Peer Observation Program

Faculty members launched the Peer Observation Program to enhance teaching practice and foster a culture of collaboration. With guidance from CMU's Eberly Center, the team worked together to provide constructive feedback on teaching, classroom materials and visual aids.

Wimmer Faculty Fellowship

Adviti Naik is developing a new advanced elective course in precision medicine. Naik was selected as a Wimmer Faculty Fellow for 2024-25, and will design the course with support from CMU. She is the third Wimmer Faculty Fellow from the Qatar campus.

Summer Research Institute

Madina Kunakbaeva, **Zhansaya Matkenova** and **Jemal Velihanova** participated in the Summer Research Institute at CMU. The program takes place over nine weeks, with students conducting research in molecular biology and biochemistry.

Business Administration

Business administration students at CMU-Q learn quantitative decision-making, our pioneering approach to undergraduate business education. With an emphasis on analytics and leadership development, students are prepared for the challenges of the global business landscape.

Business administration alumna **Marwa Zouzou** (BA 2016) joined Ki-Won Haan's class, *Managing Across Cultures*, to discuss their experiences in diverse workplaces.

Case writing and teaching workshop

Glenn Rowe, professor emeritus at the Ivey Business School, delivered a three-day workshop on case writing and case teaching to members of staff and faculty. Business cases are educational tools that encourage students to analyze and solve real-world problems related to coursework.

New region-specific courses

CMU-Q introduced three new business administration courses that were developed specifically for the Gulf region. Beginning in the spring 2024 semester, CMU-Q offered Islamic finance, Islamic economics, and innovation and entrepreneurship in emerging markets.

Quantitative Quest Qatar

CMU-Q hosted a data analytics competition for university students. Participants from five universities developed predictive models for a dataset. The finalists presented their models to a panel of faculty judges. **Sameer Mathur** was the lead organizer of the event.

Global STEM Education Alliance Symposium

Graduating senior **Mary Effie Akinyi** attended the 2023 mEducation Alliance Symposium. Akinyi was invited to attend by mEducation Alliance, the non-profit organization where she interned during CMU's Washington Semester Program.

Singapore Week of Innovation and Technology

A startup co-founded by student **Mukhammadjon Gafurov** was selected to join the Qatar delegation at the Singapore Week of Innovation and Technology (SWITCH) 2023. At the event, Gafurov showcased eyeTech, an AI-powered eye-tracker that helps medical professionals improve their diagnostic skills.

Innovation Scholars

Ekaterina Demenkova, a rising junior, was named Innovation Scholar by the Swartz Center for Entrepreneurship at the CMU Pittsburgh campus. The two-year program is completed in conjunction with the participants' regular studies.

Patent Innovation Award

Diala Budeir, a business administration senior, received the Patent Innovation Award at the European Innovation Academy in Portugal. Budeir's team developed an idea for a language learning app that uses a gaming approach to conversational speech.

Computer Science

Computer science students at CMU-Q learn both the theoretical foundations and the practical knowledge to push the frontiers of the field and make a real-world impact.

A. Nico Habermann Distinguished Lectures in Computer Science

Distinguished lectures in computer science are named in honor of A. Nico Habermann, founding dean of the School of Computer Science. Two of these distinguished lectures took place during the year.

International publications

Students **Thang Bui-Nguyen** and **Temoor Tanveer** published three research papers in international journals, including the *IEEE Internet of Things Journal*, during the academic year. The students worked for more than two years on a novel, realistic, open-source testbed for federated learning. All three papers were co-authored by **Hend Gedawy** and **Khaled Harras**.

Amazon OpenSearch

Raman Saparkhan, a computer science junior, was an invited speaker at the inaugural Amazon OpenSearchCon 2023 in Seattle, U.S.A. Saparkhan worked as a contributor to OpenSearch, a community-driven, open-source search and analytics suite.

Entrepreneurship for Computer Science

In a new course, **Mohammad Hammoud** challenged students to explore entrepreneurship through a computer science lens. Students presented their prototypes at a final showcase, judged by industry experts and faculty members. **Mugur Preda** and **Raman Saparkhan** placed first in the showcase with HealthBook, an idea to revolutionize the way health records are shared.

Qatar Collegiate Programming Competition

CMU-Q hosted the largest QCPC competition in history, which drew more than 200 students on 35 university-level teams and 29 high school teams. The winning team included CMU-Q students **Andrey Genze**, **Ulan Seitkaliyev**, and **Gulnaz Serikbay**.

Information Systems

Information systems students learn to design, deliver, and use information and communication technologies to solve problems for companies, governments, and society.

Design and wicked problems in business, tech, and society

Nursing informatics

Daniel Phelps delivered a webinar to 645 participants on the topic of basic study design in health informatics. The session was part of the Nursing Informatics Research Education Webinar at Hamad Medical Corporation.

Alumni advisors

Yusuf Musleh (CS 2016), **Muhammad Ali Najeeb Qazi** (IS 2017), **Farjana Salahuddin** (IS 2017), **Sirat Farhin** (IS 2017), and **Zuhair Mohammad** (IS 2016) served as adjunct advisors for the information systems consulting project course in Spring 2024.

Information systems faculty members recognized the achievements of graduating seniors at the annual IS Senior Plaque Ceremony.

Women and digital entrepreneurship in Qatar

Nui Vatanasakdakul adapted a course in e-business and design thinking for the year-long Provost's Inclusive Teaching Fellowship. Vatanasakdakul encouraged students to explore how in Qatar, female entrepreneurs face different challenges than their male counterparts.

Conference on Empirical Methods in Natural Language Processing

Houda Bouamor served as a key organizer for the 2023 Conference on Empirical Methods in Natural Language Processing (EMNLP2023), an event that drew about 4000 world global experts in the area of Natural Language Processing, a subfield of artificial intelligence.

Provost's Inclusive Teaching Fellowship

Mohammad Aazam was awarded a Provost's Inclusive Teaching Fellowship to adapt a course in the 2024-25 academic year. Sponsored by the provost and administered by the Eberly Center, this program aims to enhance diversity, equity, and inclusion in CMU courses.

GAITAR Fellowship

Houda Bouamor is part of a CMU team investigating if generative AI tools affect equity in student outcomes. The Generative Artificial Intelligence Teaching as Research (GAITAR) Initiative measures the impacts of Generative AI tools on students' learning and educational experiences at CMU.

Arts and Sciences

Students in all majors learn to draw connections and work effectively outside their majors through study in the arts and sciences. Courses span the disciplines of Arabic studies, English, French, history, library sciences, mathematics, philosophy, physics, psychology, Spanish, and statistics.

Pi Day Mathematics Competition

The 2024 Pi Day Mathematics Competition, organized by **Zealeem Yilma** and the mathematics faculty of CMU-Q, included more than 300 high school students from 85 government and private Qatar high schools. Teams from DPS Modern Indian School took the top spot in the final round.

Integration Bee Competition

CMU-Q hosted the Integration Bee, a competition for university students who are interested in celebrating excellence in mathematics. The event was created and organized by **Layan El Hajj**, and faculty members at CMU-Q, Hamad Bin Khalifa University, Qatar University and Texas A&M University at Qatar wrote questions, and served as judges.

Georgetown University in Qatar workshop

Pía Gómez-Laich, **Thomas Mitchell** and **Silvia Pessoa** delivered a workshop on tools for effective argument writing to the CIRIS Undergraduate Research Advancement at Georgetown University in Qatar.

Python software for longitudinal Google Trends

Taeyong Park published the software `:pytrends_` longitudinal: a Python package for generating longitudinal Google Trends data. The package is published on Python Package Index (PyPI), a repository of software for the Python programming language.

Arts and Sciences Undergraduate Exhibition

Students showcased 25 projects from arts and sciences courses in a digital exhibition for the CMU-Q community. The event is co-chaired by **Kira Dreher** and **Silvia Pessoa** to highlight the important scholarly work students create in these courses.

Knowledge Talk, Dubai

Dudley Reynolds delivered an invited talk at the Knowledge Summit in Dubai. Reynolds spoke about knowledge cities and how the multiversity context enhances both learning and research.

Academic Resource Center

The ARC provides students with the support, resources and opportunities to improve learning and succeed academically.

Consultations with students

The ARC offers consultations for students who have questions about course material or wish to challenge themselves academically. There were more than 1750 consultation visits during the academic year.

StuCo Program

The Student-taught Courses program is an opportunity for students to design and deliver a unique course to their peers. Students receive guidance on course design, syllabus writing and teaching. This year, students delivered courses in seven topics, including 3D modeling and rendering, and natural language processing ethics.

Tutor Connect Series

The ARC collaborated with Texas A&M University at Qatar to enhance the skills of student tutors. The training series provided a platform for sharing knowledge, hearing diverse perspectives, and gaining a deeper understanding of core tutoring topics.

PRISEAL conference presentation

Sheren Saad presented her work on the struggles facing Gazan scholars and scientists at the Publishing Research Internationally: Issues for Speakers of English as an Additional Language conference (PRISEAL). Saad was also the recipient of the Outstanding Academic Support award for 2023-24.

Outstanding Course Assistant award

The 2023-24 Outstanding Courses Assistant award recipient was **Ulan Seitkaliyev**. The award recognizes exceptional commitment to tutoring undergraduate students.

Library

The CMU-Q Library supports the academic and research programs at the Qatar campus. Students, faculty and staff have access to a large collection of databases, ejournals and ebooks, as well as print resources.

Fostering Open Science

Sayed Choudhury, associate dean for digital infrastructure at CMU Pittsburgh, shared the latest news from the CMU Open Source Programs Office. The OSPO raises awareness and capacity for open source software to better develop, manage, curate, and share information.

Cyanotype techniques workshop

Dylan Vitone, an associate professor at CMU's School of Design, provided a hands-on workshop on the cyanotype process, a type of photographic printing that produces a monochromatic image in shades of blue by using the sun as a light source.

Author talk

Suzanne Hassan Hammad, the author of *Emplaced Resistances in Occupied Palestine*, shared her insights into everyday life and struggles of the Palestinian people.

Research communication workshop

Nicky Agate, associate dean for academic engagement at the Pittsburgh campus, presented strategies for communicating research to different audiences. The discussion provided guidance for students and faculty conducting research.

Generative AI workshop

Tatiana Usova and **Reya Saliba** held a workshop for the CMU-Q community to provide guidance in the power and pitfalls of generative AI tools. The workshop delved into engaging with generative AI in an effective and responsible way.

Community Engagement

Our community begins with the Carnegie Mellon network of faculty, staff, students and alumni all over the world. We also have strong, living connections with Qatar Foundation, our strategic partners, and the wider Qatar community. Engaging with leaders, experts, and students in the community offers rich learning opportunities, and contributes to the development of Qatar.

Collaborations with Qatar Foundation

We are close partners of Qatar Foundation, and each day our students, faculty, alumni and staff work with entities across Education City to build a hub of learning, cooperation and discovery.

QF Excellence award

At the Qatar Foundation Convocation ceremony, **Her Highness Sheikha Moza bint Nasser** presented the QF Excellence award to two graduates from the CMU-Q Class of 2024. **Muneera Al-Baker** and **Yahya Elkhatib** were among just 16 graduating students who received the award.

Muneera Al-Baker

Yahya Elkhatib

QF Alumni

CMU-Q graduates are active in the QF alumni network. Highlights include **Asma Al-Kuwari** (BA 2011), who moderated a panel discussion of Education City alumni at this year's QF Alumni Forum, and **Yasser Khan** (IS 2011) who discussed the future of social media at a QF Alumni Talk.

Asma Al-Kuwari

US Arabic Debates Championship finals

A student team of **Ahmad Alhallaq**, **Moamin Ibrahim** and **Diram Tabaa** reached the finals at the United States Arabic Debates Championship, an outreach initiative by Qatar Debate. About 150 debaters from 40 universities competed at the event.

QF Math Circle

Michael Trick shared his passion for scheduling and optimization at QF Math Circle. Now in its second year, Math Circle now offers more than 50 high school students a weekly after-school exploration of math concepts, taught by faculty members from CMU-Q, Hamad Bin Khalifa University, Texas A&M University at Qatar, VCUarts Qatar, and Weill Cornell Medicine-Qatar.

CONVOCAATION 2024

Collaborations with Qatar Foundation

CMULead in Qatar

CMU-Q hosted the first CMULead in Qatar, a professional development leadership program created at the Pittsburgh campus. Sessions were delivered by CMU human resources specialists and included participants from CMU Africa, CMU-Q, Hamad Bin Khalifa University, QF, VCUArts Qatar and Weill Cornell Medicine-Qatar.

Qatar Teaching and Learning Forum's Badir

Thomas Mitchell was an organizer of Badir, an event hosted by the Qatar Teaching and Learning Forum to build multiversity connections, share ideas about teaching and learning, and imagine the future of Education City. Mitchell, along with **Agustin Indaco** and **Jennifer Bruder**, led roundtable discussions and several other faculty members and students attended the event.

Study Abroad in Qatar

In the spring semester, CMU-Q hosted four exchange students from the American University of Beirut. The students were part of the new program, Study Abroad in Qatar, which is a collaboration between Education Above All (EAA) Foundation and QF.

Research talk on women in higher education

Iman Adeinat delivered a research talk to the Education City community titled "Empowering women from segregation: Journey of women in higher education in Saudi Arabia." The event was organized by Women Leaders in Higher Education and supported by the DEIB office at CMU-Q.

Second Multiversity Symposium in Education City

Experts from CMU-Q were an integral part of the Second Multiversity Symposium, including **Anthony Weston** on the QF Math Circle panel, **Jeffrey Squires**, **Dudley Reynolds** and **Hope Rodefer** on the AI+X session, and **Dudley Reynolds** on the logistical challenges of managing collaborations panel.

Education City Marhaba

Michael Trick moderated a panel at the Marhaba event for Education City students. The event welcomed new students from all of the partner universities, and showcased the many opportunities within Education City.

"Students at the partner universities in Education City share in a unique educational experience, and are part of a large, diverse community of learners."

Dean Michael Trick

Community Partners

We are proud to have strong, collaborative relationships within the Qatar community. Each year, we strive to strengthen these connections, and we seek out new partnerships with entities that share our vision of the transformative impact of education.

"I strongly believe that as an institute of higher learning, we have a responsibility to share our expertise with the community. These workshops provide our community partners with insight and information so they can better understand the forces that are shaping the world."

Dean Michael Trick

Chante Cox-Boyd

Dean's Lecture Series

The Dean's Lecture Series is a forum for prominent industry leaders, government officials and members of the business community to share their expertise on topical issues. The series has hosted some of the most influential thinkers in Qatar.

The role of businesswomen in community development

Aisha Hussein Alfardan
Vice-Chairwoman
Qatari Businesswomen Association

Education and innovation strategy in developing countries

Fahad Al-Sulaiti
Chief Executive Officer
Education Above All (EAA) Foundation

QNB corporate strategy

Abdulla Mubarak Al-Khalifa
Group CEO
Qatar National Bank (QNB)

The role of telecommunications companies in human development

Sheikh Hamad Abdulla Jassim Al-Thani
Chief Executive Officer

Rashid Bin Ali Al Mansoori
CEO
Aamal Company

Community Partner Workshops

The Community Partner Workshop series expanded to include sessions by faculty members from both the Doha and Pittsburgh campuses. The world-class faculty of Carnegie Mellon delved into topics that are top-of-mind for people around the world, including AI, cybersecurity, supply chain, and digital accessibility. Nearly 1,500 people attended a total of 19 workshops during the academic year.

Carnegie Mellon Pittsburgh faculty

- Intersectional approaches to women's equality in the workplace, **Marian Aguiar**
- From zero to a billion: How we grew Net Health in three distinct phases, **Patrick Colletti**
- Group interactions and decision making, **Chante Cox-Boyd**
- The importance of the therapeutic relationship in helping professions, **Crista Crittenden**
- Driving innovation: Systems and frameworks for large-scale AI implementation in the industry, **Mohamed Farag**
- Leveraging generative AI to improve governmental activities and private sector performance high-level, **Mohamed Farag**

- Addressing the gap in cybersecurity expertise, **Hanan Hibshi**
- Digital accessibility and equity: Where do we stand?, **Divakaran Liginlal**
- Responsible governance of AI systems: Accountability and verification, **Alex John London, Melissa McCradden**
- Changing your genes - Genome, **Gordon Rule**
- Design your life, **Peter Scupelli**
- Social innovation: New ideas to change the world, **Nico Slate**
- Generative AI and systems thinking: A symbiotic synthesis, **Raja Sooriamurthi**
- Better together: Best practices in co-creation and community-generated art and design projects, **Dylan Vitone**

Carnegie Mellon Qatar faculty

- Qatar supply chain resilience: Navigating tomorrow, **Iman Adeinat**
- Unlocking leadership excellence: Strategy, vision, and resilience, **Hussein Fadlallah**
- Valuation for non-finance managers, **Fuad Farooqi**
- Improving product and package design using sensory marketing, **Varun Sharma**

Memoranda of Understanding

CMU-Q signs memoranda of understanding with members of industry and government to promote learning and research and to provide opportunities for CMU-Q students and graduates. In 2023-24, four new agreements were signed.

Hamad Bin Jassim Center for K-12 Computer Science Education

“Computer science has become an integral part of nearly every field, and I believe that every student should have a foundation in computing, regardless of what careers they ultimately pursue.”

Khaled Harras
Director, HBJ Center

For six years, the Hamad Bin Jassim Center for K-12 Computer Science Education has been inspiring curiosity in computing among middle and high school students in Qatar. A collaboration between CMU-Q and the Jassim and Hamad Bin Jassim Charitable Foundation, the center organizes a slate of programs and workshops for students.

Alice ME Programming Competition

The ninth annual Alice Middle East Programming Competition challenged students across Qatar to create games and animations using the Alice educational software. This year, 115 student teams from 50 schools submitted unique projects in the categories of cybersecurity, sustainability, crisis management, health and wellness, and entrepreneurship.

Alice was created at CMU and adapted for Qatar by CMU-Q. Programming using Alice is a curriculum component of the information and communication technology courses taught in Ministry of Education and Higher Education schools, as well as several private schools in Qatar.

MindCraft

MindCraft is a suite of workshops and camps designed to spark interest in computer science, and to explore the basics of coding. During the year, the HBJ Center held 13 one-day MindCraft Alpha workshops for 1,028 students, and nine bespoke MindCraft OnDemand workshops for 947 students.

MindCraft has also developed in-depth MindCraft Camps for students during their school breaks, covering topics like Python, AI and machine learning, and cybersecurity. There were 13 camps during the academic year, and more than 330 students attended.

Qatar Investment Authority Center for Professional Education and Research

The Qatar Investment Authority and CMU-Q formed a new center dedicated to enriching business education in the Gulf region. The QIA Center for Professional Education and Research fosters an environment of learning and innovation in business administration. **Iman Adeinat** and **Fuad Farooqi** serve as co-directors.

As part of the agreement, CMU-Q will provide education and training for the QIA apprenticeship program, and the QIA Center will also support the development of Qatar-specific business cases that can be used for teaching business students in the Gulf.

Why data visualization?

- Visual representation aids understanding.
- Simplifies complex data sets.
- Reveals patterns, trends, and anomalies.

Case Hub

Case Hub is a research initiative that works with local businesses to create educational case studies for the classroom. Using region-specific cases helps CMU-Q students learn business concepts that are relevant and contextual for business students and graduates.

“Cases put the students in the shoes of the decision makers, and through this experience the students learn how to weigh information and make decisions.”

Iman Adeinat
Co-director, QIA Center

“Case Hub is creating cases about businesses from this region that will provide a richer, context-specific understanding when students begin their careers in Qatar.”

Fuad Farooqi
Co-director, QIA Center

QIA Apprenticeship Program

The QIA Center delivered a nine week professional education series to 20 new employees of Qatar Investment Authority, including lessons in finance, Microsoft Excel, project management, business communications, business presentations, leadership, negotiations, cybersecurity, and business analysis. This was the second cohort through the program.

Carnegie Mellon Connections

We are proud to be part of the Carnegie Mellon global community, connected to the scholarship, research, spirit and culture that defines Carnegie Mellon worldwide.

Rwanda professional development trip

CMU-Q faculty and staff members traveled to Rwanda for a high-impact professional development experience. The trip was an opportunity to forge connections among one another, as well as members of the CMU Africa community. **Mohammed Khodary** and **Kranthi Sangishetty** served as trip leaders.

ADDvocates

The fall ADDvocates course was taught online with students on the Qatar and Pittsburgh campuses. **Ezzhra Moufid** and **Annette Vincent** taught the 6-unit course from Qatar, and **Ayana Ledford** coordinated through Dietrich College. In the spring, CMU-Q successfully piloted the option of a 9-unit course.

CMU College Council presentation

Pía Gómez-Laich, **Thomas Mitchell** and **Silvia Pessoa** presented their research on tools to support student writing across the disciplines to the Carnegie Mellon College Council in Pittsburgh.

CMU alumni gathering in Dubai

Carnegie Mellon graduates in the region reconnected and networked for an evening in Dubai. The event drew community members from both the Pittsburgh and Qatar campuses, including alumni, staff, and faculty.

Sound of the Baroque flute

Stephen Schultz, teaching professor of music history and director of the Carnegie Mellon Baroque Orchestra, delivered an interactive talk about the history of the Western concert flute for the CMU-Q library.

IMPAQT

The annual Initiating Meaningful Pittsburgh and Qatar Ties trip took place, with cohorts from each campus experiencing a week at the other location.

Micro courses

Taught by faculty members from the Pittsburgh campus, micro courses offer CMU-Q students a sampling of CMU's broad range of disciplines.

- Transnational feminisms, **Marian Aguiar**
- Innovation and the entrepreneurial mindset, **Patrick Colletti**
- Introduction to health psychology: SES and health inequalities, **Chante Cox-Boyd**
- Introduction to health psychology: Methods of inquiry, **Crista Crittenden**
- Innovation in building AI-products, **Mohamed Farag**
- Cybersecurity in our daily applications, **Hanan Hibshi**
- Digital accessibility fundamentals, **Divakaran Liginlal**
- Genome editing, past, present, and future, **Gordon Rule**
- Biopharma protein based pharmaceuticals, **Gordon Rule**
- Love, drugs, and war: The obsessions of history's great composers, **Stephen Schultz**
- Design your life, **Peter Scupelli**
- Puzzles, games, and problem solving, **Raja Sooriamurthi**
- Creating the future: The history of innovation, **Nico Slate**
- Introduction to health psychology: Stigma and its consequences, **Michael Trujillo**
- The portrait, **Dylan Vitone**

Campus exchange

Five students from Carnegie Mellon's campus in Pittsburgh spent a semester in Qatar during the academic year. A record number of 82 CMU-Q students spent the summer, fall or spring semester in Pittsburgh.

Diversity, Equity, Inclusion, Belonging

At Carnegie Mellon, the principles of diversity, equity, inclusion and belonging guide our values and serve as our foundation. The Qatar campus is committed to building a campus climate that embodies these principles.

Vice provost visit

Wanda Heading-Grant, CMU's vice provost for diversity, equity and inclusion and chief diversity officer, and **Stephanie Shea**, case manager of the Office for Institutional Equity and Title IX, visited the Qatar campus to share insights on DEIB initiatives. Heading-Grant and Shea also led a session for supervisors on best work climate practices.

Karak Konnections Series

More than 200 community members participated in Karak Konnections, a venue for community members to meet and learn about others from different backgrounds. Nearly every student applicant for DEIB committees this year cited Karak Konnections as an event that drew them to volunteer.

Equity and inclusion in the Doha workplace

DEIB joined forces with Career Development at CMU-Q to host a panel with industry representatives on the roles of equity and inclusion in the Doha workplace. The panel included guests from SLB (Schlumberger), Clyde & Co., Great Place to Work and KPMG.

Club partnership

DEIB partnered with the Arts and Crafts Club to deliver a two-part Ramadan decoration event to build community and celebrate culture. The partnership will serve as a model moving forward to engage students in aspects of DEIB as they plan club activities and events.

Inclusive mentorship data

The Research and Data Group collected a second round of data for a research project that explores the current mentorship models and experiences of faculty and students who present projects at Meeting of the Minds.

Women Leaders in Higher Education

CMU-Q is a founding member of this multiversity collaboration supporting DEIB in Education City. For the 2023-24 year, **Annette Vincent** served as chair, and **Iman Adeinat** was a committee member.

Leading Together Conference

More than 90 registrants attended the one day event that was sponsored by CMU-Q and Texas A&M University at Qatar located in Multaqa. **Kira Dreher** delivered opening remarks, and **Hussein Fadlallah** presented a workshop on inclusive leadership.

Student Experience

Throughout their undergraduate education, students are part of a supportive community that encourages them to grow and thrive, both in and out of the classroom. During this four-year journey, they celebrate together, explore their interests, learn to find balance, and prepare to embark on their careers.

A Strong, Connected Community

Our campus is a unique place to study: students of all majors and cohorts, along with their Education City peers, form a close-knit, diverse community that is enthusiastic, supportive and encouraging.

Tarnival

For the first time after the pandemic, students organized Tarnival. The Tartan carnival takes place on the Green Spine and brings together faculty, staff, students and alumni, as well as members of the Education City community.

Student-led community events

Students took the lead organizing events to celebrate the diversity of the Tartan community. Highlights included International Night and Tartans Got Talent, which showcased the rich tapestry of culture and talent within the student community.

Student Majlis

Student Majlis is CMU-Q's student government body, elected each year by the students. Student Majlis guides much of the life and activities on campus, and they are a critical liaison between the students and faculty and staff.

- President: **Hala Al Darbasti**
- Vice president: **Noora Almannai**
- Head of clubs: **Maryam Al-Ghanim**
- Head of sports and wellbeing: **Fatima Al Jaidah**
- Head of finance: **Akniyet Serikbay**
- Head of communications: **Sara Al Mana**
- Head of academics: **Lulu Al-Majed**

Thursday Majlis

Each week, students from all cohorts and majors come together for Thursday Majlis. The executive team hosts community building activities such as quizzes, games, and musical performances.

Cohort-building experiences

Student class representatives organize weekend and break-week experiences for the four classes. Highlights from last year include the senior kayaking trip, the senior dhow cruise, first-year movie night, and first-year ice skating.

Multiversity Connections

Backyard Battle

This annual musical competition draws performers from across Education City to compete for the trophy. Backyard Battle is a collaborative event, organized by students at CMU-Q, Georgetown University in Qatar and VCUArts Qatar. This year's battle was hosted by CMU-Q.

Model United Nations

CMU-Q sent two delegations of 12 students to participate in Georgetown University in Qatar's fall 2023 Model UN competition. Model United Nations is a student-run simulation of the United Nations, where students assume the roles of foreign diplomats to learn about international politics and diplomacy.

Qatar Foundation Charity Week

CMU-Q students joined in QF Charity Week to raise money for international humanitarian projects, including orphan sponsorship, emergency relief, medical aid, and education. Charity Week is a volunteer-led non-profit organization that is active in Canada, Ireland, Germany, Malaysia, Qatar, South Africa, the United Kingdom and the United States.

Personal Growth and Development

CMU-Q sees each student holistically. During the undergraduate journey, we provide opportunities and support for students to grow in intellectual and artistic curiosity, personal well being, professional development, leadership, social responsibility, and intercultural learning.

Holistic wellbeing

Peer Health Advocates

There were seven student leaders who served as Peer Health Advocates during the academic year, working in partnership with Student Affairs to support wellness initiatives and promote health education.

World Mental Health Day

In collaboration with Student Majlis, the Peer Health Advocates hosted a special Thursday Majlis focused on mental wellbeing. CMU-Q's psychologist, **Atorina Benjamin**, answered questions about how students can support their own mental health, as well as those in their community.

Respond training

The Respond Mental Health Training Workshop helped 22 faculty and staff members build confidence in recognizing and correcting misconceptions about mental health problems and supporting community members who are in distress.

Bystander intervention training

Student Affairs hosted bystander intervention training to help students recognize potential harmful situations and choose a response method that can positively influence the outcome.

Health and wellness collaborations

- Education City Health Advisory Committee
- Flu and COVID vaccine campaigns, with QF Occupational Health
- Blood sugar screenings, with the Qatar Diabetic Association
- Body fat analysis and nutritional consultations with a QF nutritionist

Global Learning Trips

Global Learning Trips are faculty and staff-led programs for students to experience an interdisciplinary theme through cultural exploration. This year, we offered eight experiences with 101 students participating:

- Women's empowerment, Dublin, Ireland
- Food insecurity volunteer program, Ho Chi Minh, Vietnam
- Exploring the intersection between technology, business and culture, Seoul, South Korea
- Art meets technology in Emilia-Romagna, Modena and Bologna, Italy
- Unveiling Japan: Embracing tradition and innovation, Tokyo, Japan
- Initiating Meaningful Pittsburgh and Qatar Ties (IMPAQT), Pittsburgh, USA
- Healthy Tartans, Seoul, South Korea
- Achieving carbon neutrality, Kathmandu, Nepal and Thimphu, Bhutan

Leadership and Career Readiness

Leadership development

Student clubs

Organized and led by students, clubs bring together students and community members who share a variety of interests: academic enrichment, cultural identities, hobbies and recreation, and sports. Through organizing activities and events, students build the skills of time management, collaboration, and community stewardship.

Student Majlis club awards

Each year, Student Majlis recognizes exceptional club activities. The winners this year were selected from 42 clubs that were officially recognized during the academic year.

- Best community contribution: Muslim Student Association (MSA), Arts and Crafts Club
- Best community event: Palestinian Identity Club (PIC), Muslim Student Association (MSA), Qatari Student Association (QSA)
- Most creative marketing: Arts and Crafts Club
- Best new club: Padel Club
- Club of the year: Padel Club

Senior Leadership Awards

Senior Leadership Awards are presented each year to graduating seniors who demonstrated extraordinary leadership and made substantial contributions to the community during their time at CMU-Q.

- Ahmad Alhallaq (with distinction)
- Fadia Hussain (with distinction)
- Hana Abdelmajid
- Katrina Agcaoili
- Mary Effie Akinyi
- Muneera Al-Baker
- Marwa Darwish
- Yahya Elkhatib
- Mariam Elmeragawi
- Mariam Hamad
- Osman Mohamed

Career readiness

Career Cafe

In both fall and spring semesters, CMU-Q hosted Career Cafe for employers to share information about their organizations, network with students, and share internship or job possibilities.

Future's Fair

In fall 2023, CMU-Q held the first Future's Fair to showcase options for career paths and graduate school. More than 50 employers attended, as well as eight graduate schools.

Internship Showcase

Students presented their summer internship experiences to an audience of peers, faculty, staff and employers. A networking reception followed the presentations.

Careers in Consulting

This Education City-wide event connects students to the top consulting firms in Qatar to learn about the industry and application process.

Career Readiness Week

The Education City Careers Services Advisory Committee organized a week of career and professional development preparation before the Education City Career Fair. Mock interviews were offered by Deloitte, Excelledia Quality Consulting, Ministry of Communication and Information Technology, QatarEnergy LNG, and UBS.

Education City Career Fair

CMU-Q and Texas A&M at Qatar hosted the Education City Career Fair. More than 100 prominent companies from various industries and sectors in Qatar came to the fair to meet students and alumni from the partner universities.

Tartan Talks

Safa Salim (BS 2017), **Yusuf Musleh** (CS 2016), **Nofe Al-Suwaidi** (BA 2013) and **Ghanim Al-Sulaiti** (IS 2012) shared advice and work experiences with CMU-Q students at the Tartan Talks panel discussion.

Career development mini-course

CMU-Q launched a mini-course titled, "Get career ready." The course was also available to students asynchronously so they could engage in career exploration and readiness skills.

Industry collaborations

- Mentoring programs with Deloitte and PwC
- Office visits for students to visit Microsoft, Bain & Co and PwC
- Case prep consultations with Bain & Co, BCG, and Oliver Wyman, in collaboration with the Consulting Club
- A session with Qatar State Audit Bureau to discuss safeguarding public finances, in collaboration with Carnegie Mellon Finance Association
- A session by UBS sharing insights about career paths, talents programs and application processes, in collaboration with the Computing Club

Career Cafe

Future's Fair

Tartan Talks

Research and Innovation

Research and innovation are an integral part of Carnegie Mellon, and the Qatar campus is no exception. Faculty and students engage in projects that address local and regional challenges, and we seek out areas of inquiry that are aligned with Qatar's national priorities, including artificial intelligence and sustainability.

The Year in Faculty Research

CMU-Q faculty members research questions across a broad spectrum of disciplines. They are active within Qatar’s research community, and they contribute to the engines that drive international research, including scholarly publications, professional organizations and academic conferences.

PRESENTATIONS
AND TALKS

11

NEW SEED GRANTS

New seed grants

Seed research funding from Qatar Foundation supports long-term faculty as they build impactful projects for Qatar and the world.

- **Iman Adeinat**, Enhancing retail supply chain resilience: Supplier diversification strategies amidst supply chain disruptions
- **Jocelyn Bélanger**, Countering extremist ideologies through cognitive-behavioral therapy interventions: A novel approach
- **Andrés Castaño Zuluaga**, Spreading the good fortune: An analysis of diversification and complexity across economic sectors in Gulf countries over 2000-2020
- **Layan El Hajj**, Geometric and qualitative analysis in free boundary problems
- **Hussein Fadlallah**, Semi-decentralized platform governance: A qualitative study
- **Eduardo Feo Flushing**, e-Rshad: Enabling inclusive indoor navigation for individuals with visual impairments
- **Ki-Won Haan**, Investigating the role of team design in enhancing collaboration
- **Nimer Murshid**, Innovative hybrid plasmonic metal nanoparticles: Synthesis, characterization, and exploration of their stability and cytotoxicity for advanced biosensors
- **Adviti Naik**, Investigating PARP inhibition in colorectal cancer cell lines and combinatorial approaches to improve sensitivity
- **Lama Nassif**, Teaching grammar in the L2 Arabic classroom: A focus on form practice
- **Silvia Pessoa**, Refining and developing tools to support academic, disciplinary, and professional communication

Qatar Business and Economics Symposium

CMU-Q hosted the first Qatar Business and Economics Symposium to bring together researchers to share their projects, receive feedback, and network with potential collaborators. **Veli Safak** was the chief organizer of the event.

New international research community contributions

Nesrine Affara and **Jeffrey Squires** served as co-chairs for the permanent panel, “Science and Fiction,” for the Midwest Modern Language Association (MMLA).

Chadi Aoun served as track co-chair, Green IS and Sustainability (SIGGreen), Americas Conference on Information Systems in Panama.

Kira Dreher served as program co-chair of IEEE’s International Professional Communication Conference at Cornell University in New York, USA.

Nui Vatanasakdakul served as research track chair, Green IS and Sustainability (SIGGreen), Americas Conference on Information Systems in Panama.

CMU-Q Statistical Consulting Center workshops

The CMU-Q Statistical Consulting Center continued its workshop series with three sessions:

- What statistical analysis should I use? **Taeyong Park**
- Data visualization with Tableau, **Sameer Mathur**
- Data visualization and statistical analysis with SPSS, **Sameer Mathur**

Participants included CMU-Q community members, as well as researchers from Georgetown University in Qatar, Northwestern University in Qatar, Qatar Academy, Qatar Foundation, Sidra Medicine, and Texas A&M University at Qatar.

Top paper finalist, ACM SIGSPATIAL

A research paper co-authored by **Khaled Harras** was recognized as one of four top papers at the 31st ACM SIGSPATIAL, the premier conference for research covering conceptual, design, and implementation aspects of geospatial data.

Revolutionizing vertical greenwalls

Qatar National Research Fund awarded a new grant to develop more efficient and sustainable vertical greenwalls. Led by **Jayaprakash Saththasivam**, a scientist at QEERI, the team’s approach involves repurposing agricultural waste and greywater. CMU-Q’s **Deepa Nair** will contribute her expertise in the social and cultural implications of sustainable agriculture.

Sui Academic Research Award

Giselle Reis received a Sui Academic Research Award for her project, “A framework for high-assurance verification of decentralized Oracle protocols.” The Sui Foundation promotes research and innovation using the Sui blockchain technology.

Focus on AI

At Carnegie Mellon, the place where artificial intelligence was invented more than half a century ago, we understand that we have an obligation to study and create new frontiers in AI. CMU-Q's faculty members are experts in a myriad of disciplines that define AI today, and how it will be used in the future.

Active QNRF-funded projects in AI

- Dimension-specific automated scoring of Arabic language writing proficiency, Submitting Institution: Qatar University; CMU-Q PI: **Houda Bouamor**
- Resources and applications for detecting and classifying polarized and hate speech in Arabic social media, Awarded to HBKU; CMU-Q PI: **Anis Charfi**
- Greenhouse-5.0: AI robotics for automated data collection, analytics, and decision support in greenhouse farming, LPI: **Gianni Di Caro**
- Autonomous PV cleaning and inspection system for hot desert weather conditions, Awarded to HBKU; CMU-Q PIs: **Eduardo Feo Flushing** and **Gianni Di Caro**
- HyBrush: A hybrid UAV brushing system for PV monitoring and cleaning, Primary research mentor: **Eduardo Feo Flushing**

Generative AI Teaching as Research Initiative

Carnegie Mellon's Eberly Center launched the GAITAR Initiative to measure the impacts of the generative artificial intelligence tools on students' learning and educational experiences. In the initiative's first year, **Houda Bouamor** and **Nimer Murshid** each were granted fellowships to investigate the impact of generative AI tools in their courses.

Media and AI curriculum

CMU-Q and Northwestern University in Qatar are exploring a new joint curricular collaboration in media and AI that includes coursework in coding, computer science, ethics, and social impact

Thought leadership

- **Nasser Alaeddine**, executive panelist, "Role of technology in improving learning and delivery of education," Future of Education Summit 2023
- **Chadi Aoun**, chair for spotlight session on "Green IS for a sustainable world: AI, IoT, and decarbonization," Americas Conference on Information Systems (AMCIS 2023)
- **Maher Hakim**, speaker, "Will the latest AI breakthroughs widen the inequity gap? Or can they be harnessed to bridge it?" Doha Tech Angels LLC Panel Series, Web Summit Qatar 2024
- **Mohammad Hammoud**, speaker, "AI and medicine: Will the whole finally exceed the sum?" Web Summit Qatar 2024
- **Mohammad Hammoud**, panelist, "Digital marketing: Horizons in the AI era," ROWAD 2023
- **Khaled Harras**, panelist for "AI and education: Ensuring a seat for every learner in an AI era," Global Education Forum 2024
- **Khaled Harras**, speaker, "Education in the age of AI: Challenges and opportunities," Qatar Foundation Multiversity Talks 2023
- **Khaled Harras**, panelist for "Bridging the Gap: Higher education and industry in the age of AI," WISE 2023
- **Khaled Harras**, television feature interview, "AI and education," Euronews
- **Lama Nassif**, panelist at "Charting the future of education: Roadmap for AI integration in the classroom," WISE 2023
- **Kemal Oflazer**, chief specialty editor, *Frontiers in AI — Language and Computation*
- **Jeffrey Squires, Dudley Reynolds** and **Hope Rodefer**, presenters, AI+X session, Second Multiversity Symposium, Education City

Focus on Sustainability

Carnegie Mellon University is committed to fostering a sustainable future for all by integrating the Sustainable Development Goals (SDGs) into education, research, and practices. At the Qatar campus, we share this collective vision for a healthy planet, as well as equity that supports social, economic and environmental justice.

LifeLines: Software that Saves Lives

A student-led team created a platform called LifeLines: Software that Saves Lives that encourages collective responsibility and harnesses technology to tackle the challenges of humanitarian crises. To introduce the platform to the community, LifeLines held a hackathon that brought together 115 students from eight universities and 12 high schools in Qatar.

Top ideas at LifeLines

- An app that uses mobile phone technology to assist visually impaired people in crisis situations, CMU-Q's **Mariam Elmeragawi, Hao Mei, Eaint Thet Su, and Zhijie Xu**
- A tool for checking news items for truth and bias, CMU-Q's **Thang Bui-Nguyen, Demetre Devidze, Andrey Genze, and Thuc Ngo**
- A tool that creates a heat map of people in need in crisis zones, Qatar University's **Mohamed Majd Aleslam, Ahmed Ashraf, Omar Elshenhabi, Aly Soliman**

Education for sustainable development

Jennifer Bruder authored a module for the MOOC Education for Sustainable Development by HBKUx. Bruder's contribution, "The head, heart, and hands of ESD: An in-depth analysis using Sustainable Development Goal 12," is part of a QNRF-funded project that she shares with researchers at Hamad Bin Khalifa University.

Active, QNRF-funded projects in sustainability

- CMU-Q Sub-project 6: Assessing baseline sustainability literacy and awareness of SDGs and develop and test interventions, Prime project: SDG education and global citizenship in Qatar: Enhancing Qatar's nested power in the global arena, Awarded to HBKU; CMU-Q LPI: **Jennifer Bruder**
- Greenhouse-5.0: AI robotics for automated data collection, analytics, and decision support in greenhouse farming, LPI: **Gianni Di Caro**
- Autonomous PV cleaning and inspection system for hot desert weather conditions, Awarded to HBKU; CMU-Q PIs: **Eduardo Feo Flushing** and **Gianni Di Caro**
- HyBrush: A hybrid UAV brushing system for PV monitoring and cleaning, Primary research mentor: **Eduardo Feo Flushing**

Language Bridges

The Language Bridges English teaching program for service workers continued, with student volunteers serving as instructors for basic, false beginner, intermediate, and advanced levels. **Erik Helin** led the initiative and mentored the instructors throughout the year.

3D printing for food security

Students **Lujain Al Mansoori** and **Mohammad Annan** held a workshop to share with the community their idea to use 3D printing technology to strengthen food security. The team is devising a novel way to print fruits and vegetables as a food source option in places like Qatar where arable land is limited.

Sustainability Charter

Michael Trick signed a Sustainability Charter on Earth Day to formalize CMU-Q's commitment to embrace environmental and social responsibility and inspire positive change.

"We have made tremendous strides in building sustainability into everything we do. It is important for Qatar. It is important for Carnegie Mellon University in Qatar."

Dean Michael Trick

EcoCampus

CMU-Q's EcoCampus team, comprising faculty, staff and students, followed a structured plan to improve sustainability and equity at the campus. The team has applied for the green flag designation from Foundation for Environmental Education (FEE), in collaboration with the EcoCampus national operator in Qatar, Earthna.

EcoCampus conference

A CMU-Q research team participated in the first international conference of FEE EcoCampus with two presentations.

- Mapping faculty research to SDGs: Experiences, challenges and recommendations, **Reya Saliba, Anurag Aryal, Jamil Daoud, Malika Dixit, MD Irfan Sadique, Sara Al-Saloos, and Jennifer Bruder**
- Experiential learning and wellness in sustainability education: Bridging DEIB and environmental stewardship in eco-expeditions on a global scale, **Angela Ng, Rosemarie Florida, Jennifer Bruder**

Student Research

A unique aspect of CMU-Q is the emphasis we place on undergraduate research. Students are encouraged to find research questions that will have an impact, especially in a local or regional context. They learn how to investigate these questions through opportunities in class, summer internships and programs, and independent study under the guidance of a faculty member.

Summer Undergraduate Research Apprenticeship

The SURA program offers undergraduates with little or no experience to learn research techniques over the summer under faculty guidance. Students who participate in SURA often go on to pursue independent research projects. There were 17 students in SURA during the summer of 2023.

Majā

CMU-Q's peer-reviewed undergraduate journal published five articles authored by students in the areas of biology, environmental psychology, corpus linguistics, and information systems. Two of these articles included faculty co-authorships, a first for the journal.

Qatar Student-Initiated Undergraduate Research Program

QSIURP is an opportunity for more experienced student researchers to investigate a project over the summer that is driven by their interests.

QSIURP projects, summer 2023

Abdelrahman Abdelnaby
Learning rules of self organization for local independent agents in collective systems
Faculty advisor: **Gianni Di Caro**

Abrr Tasneem Abir
Deep-reinforcement-learning-based decentralized multi-robot task allocation in connectivity-constrained environments
Faculty advisor: **Eduardo Feo Flushing**

Mariam Afifi
Functional analysis of ncRNAs in breast cancer cells
Faculty advisor: **Ihab Younis**

Mary Effie Akinyi Oluoch
Is fiscal policy implementation enough to address the looming debt crisis in Kenya?
Faculty advisor: **Agustín Indaco**

AIDana Aldisi
An interdisciplinary approach to understanding the correlation between cancer representations and research funding
Faculty advisors: **Nesrine Affara** and **Jeff Squires**

Mohammad Annan
Computational simulation of carbon nano-material for automotive applications
Faculty advisor: **Mohamed Zayed**

Ahmed Issaoui
Automated hairstyle recommendation and synthesis using generative models and reinforcement learning
Faculty advisor: **Houda Bouamor**

Kainaat Khan
Evaluating the effect of various ECM proteins on the cellular growth and cell shape of MDAMB231 breast cancer cells
Faculty advisor: **Mohamed Bouauouina**

Abeeha Shoaib and **Aaliya Savira**
How did COVID-19 affect Shariah compliant versus conventional firms' operating performance?
Faculty advisor: **Serkan Akgüç**

Eaint Thet Su
Deciphering the reciprocal communication between breast cancer tumors and naive fibroblast cells
Faculty advisors: **Nesrine Affara** and **Mohamed Bouauouina**

College Honors

In each academic program, students may pursue College Honors, which includes a year-long thesis project, capped off with a presentation to faculty, students, staff and families.

Class of 2024 thesis presentations

Shaikha Al-Sulaiti
Investigating the functional significance of the novel lncRNA RNA I in breast cancer
Faculty advisors: **Ihab Younis** and **Adviti Naik**

Faisal Al-Thani
The gamification and adoption of location-based applications in building local communities
Faculty advisors: **Chadi Aoun** and **Nui Vatanasakdakul**

Huda Baig
Indoor mapping: From map drawing to navigable representations
Faculty advisors: **Khaled Harras** and **Eduardo Feo Flushing**

Malika Dixit
Exploring gender bias in STEM fields - Implications for female representation in academia
Faculty advisor: **Houda Bouamor**

Adel Fergatova
The potential role of miRNAs in fibroblast activation
Faculty advisor: **Nesrine Affara**

Hana Hasna
Investigating the functional role of a PTEN-derived noncoding RNA via micro-RNA sequestering in breast cancer
Faculty advisors: **Ihab Younis** and **Adviti Naik**

Kainaat Nadeem Khan
Evaluating the effect of ECM proteins on breast cancer cells
Faculty advisor: **Mohamed Bouauouina**

Maya Salameh
Investigating sage's anti-cancer properties
Faculty advisor: **Nesrine Affara**

Eaint Thet Su
Migration and chemoresistance in breast cancer-fibroblast interaction
Faculty advisors: **Nesrine Affara** and **Mohamed Bouauouina**

Diram Tabaa
Deep learning in 3D: Enhancing point cloud data for real-world
Faculty advisor: **Gianni Di Caro**

Fiza Tarlochan
Investigating minor intron splicing in breast cancer cells
Faculty advisor: **Ihab Younis**

Meeting of the Minds

The Meeting of the Minds symposium showcased 51 posters that touched on many of the key challenges facing Qatar, including precision medicine, sustainability, gender equity and artificial intelligence. The event was supported by the Planning and Statistics Authority, who provided special awards to the posters best representing Qatar Vision 2030. The event prizes were sponsored by Masraf Al Rayan bank, including cash prizes for all six of the winners. Award winners were selected by experts from 10 organizations in Qatar, as well as judges from CMU-Q.

Best undergraduate research project

First

Adel Fergatova
Evaluating miRNA expression during fibroblast activation
Faculty advisor: **Nesrine Affara**

Second

Aiman Fatima and Fadia Hussain
ReviveWear: Revolutionizing fashion sustainability through an integrated IS Solution
Faculty advisor: **Chadi Aoun**

Third

Hana Hasna
Characterizing the functional mechanisms of a novel PTEN long non-coding RNA in breast cancer
Faculty advisors: **Ihab Younis** and **Adviti Naik**

Most promising research

First

Mariam Afifi
Functional analysis of a novel lncRNA in breast cancer
Faculty advisor: **Ihab Younis**

Second

Fiza Tarlochan
Deregulation of minor intron splicing in breast cancer
Faculty advisor: **Ihab Younis**

Third

Abeeha Shoaib and **Diaz Aaliya Savira**
From crisis to recovery: A comparative study of COVID-19's impact on Shariah-compliant vs. conventional firm profitability
Faculty advisor: **Serkan Akgüç**

Best poster

First

Malika Dixit and Noora Al-Saadi
Exploring gender bias in academic job descriptions – What influences masculine gender bias in job ads?
Faculty advisor: **Taeyong Park**

Second

Ahmad Alhallaq and Ahmed Issaoui
Deep learning for automated video assistant referee system (VARs) in football
Faculty advisor: **Gianni Di Caro**

Planning and Statistics Authority (PSA) awards

The Planning and Statistics Authority awards are given to the best posters representing the Qatar Vision 2030, covering the four pillars of human, social, economic, and environmental development. PSA awards were presented by **Dr. Yousuf A. Rahman Almulla**, Director of Strategy Implementation Follow-up Department.

Mohammad Annan

FEA car crash test analysis software
Faculty advisor: **Mohammad Zayed**

Dana Al Disi

Weaving with a pink ribbon an interdisciplinary analysis of cancer representation and research funding in Qatar
Faculty advisors: **Jeffrey Squires** and **Nesrine Affara**

Alyssa Bianca Magpantay, Abdulrahman Al Mana, Tameem Mahmoud, Khalid Al Thani and Nayef Al Kaabi

Enhancing efficiency: Optimizing the supply chain processes of Gulf International Services
Faculty advisor: **Iman Adeinat**

Haya Al Khalifa, Alanoud Al Thani and Aisha Al Subaie

Transthoracic echocardiography and mortality in sepsis: Analysis of the MIMIC-IV database
Faculty advisor: **Daniel Phelps**

Malika Dixit

Exploring gender bias in job descriptions in STEM fields: Implications for female representation in science, technology, engineering and mathematics
Faculty advisor: **Houda Bouamour**

Our Stories

Through a variety of media channels, we share the milestones and achievements of the CMU-Q community. The success stories of our students, alumni and faculty are part of the larger story of Qatar's transformation into a knowledge-based economy. By sharing our community's achievements, we hope to inspire a new generation of students to imagine and deliver work that matters, both to Qatar and the world.

Marketing and Public Relations

Through carefully crafted campaigns, we reach out to the Qatar community, share our expertise, connect with prospective students, and raise awareness of our talented graduates with potential employers.

Experts contribute to the public discourse

As public awareness increases and questions arise about the role of AI, sustainability and education in our future, CMU-Q experts have been sharing their perspectives in a variety of forums. Faculty members have joined panel discussions, given media interviews, and spoken to general audiences about their thoughts and research on these vital topics. Marketing and public relations efforts during the year helped to share the depth and breadth of knowledge at CMU-Q with people in Qatar and around the world.

Social media

CMU-Q reaches prospective students, their parents, potential employers, and alumni through targeted social media posts. Overall, we published 662 posts across all platforms last year, with a total engagement of 120,195. LinkedIn had the highest engagement rate and audience growth of all the platforms. We also reached the milestone of 10,000 followers on Instagram.

Multimedia campaigns

CMU-Q ran multimedia campaigns to boost applications in select markets, encourage admitted students to enroll, and celebrate the achievements of the Class of 2024. Each campaign included video, image carousels, and web content to make an impression on our audiences.

The Year in the News

● IN THE NEWS

● PRESS RELEASE

● WEBSITE STORY

● BROADCAST

July 2023

- CMU-Q's Dudley Reynolds co-edits handbook on the multilingual classroom
- Carnegie Mellon Qatar launches computer science summer camps
- Language Bridges returns to CMU-Q

August 2023

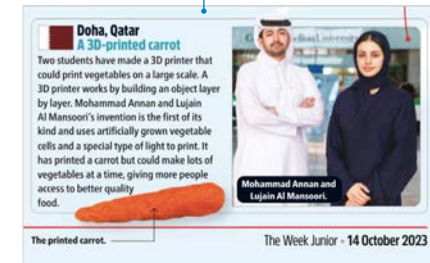

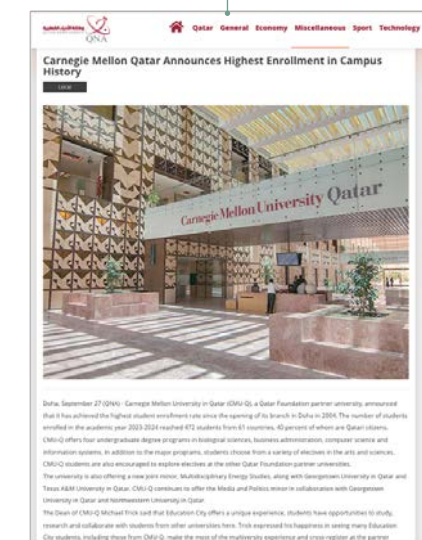

- CMU-Q officially welcomes Class of 2027
- QF's Marhaba introduces newest students to Education City's world of opportunities
- Carnegie Mellon Qatar students win top foodtech idea for printing vegetables
- HBKU's QBRI cultivates future scientific leaders at 2023 Summer Research Program

September 2023

- Carnegie Mellon Qatar welcomes seven new faculty members
- Students hone biological science skills at CMU Pittsburgh
- Qatar Red Crescent signs co-operation agreement with CMU-Q
- Student Mohammed Annan QTV interview on 3D food printing innovation
- CMU-Q announces Qatar Campus Scholars for Class of 2024
- Carnegie Mellon Qatar announces highest enrollment in campus history

October 2023

- Carnegie Mellon, Doha College teams win Qatar Collegiate Programming Competition
- CMU inclusive teaching fellowship explores women and digital entrepreneurship
- Mohammed Annan and Lujain Al-Mansoori interview on 3D food printing innovation

November 2023

- A new kind of 3D-printed carrot, in the words of its Qatar-based inventors
- QTV interview with students Muneera Al-Baker, Noora Al-Saadi and Sharoq Darwish and Nui Vatanasakdakul on women's entrepreneurship in Qatar
- Aamal CEO speaks at CMU-Q Dean's Lecture Series
- Carnegie Mellon Qatar honors 175 students for academic excellence
- Dean of CMU-Q teaches high school students at QF Math Circle

December 2023

- Computer science student speaks at Amazon OpenSearch conference
- CMU-Q students present research at Sidra precision medicine symposium
- CMU's Mona Diab: The next generation will serve Arabic using artificial intelligence
- Carnegie Mellon Qatar and MEEZA sign memorandum of understanding
- CMU-Q reaches out to students from Kuwait
- Qatar takes lead in combating desertification, says expert
- Carnegie Mellon math professor retires after 20 years at Qatar campus

January 2024

- Director of CMU Language Technologies Institute shares insights into challenges and opportunities of Arabic Natural Language Processing
- CMU-Q graduate wins four awards at Seoul invention fair
- Carnegie Mellon Qatar research among top papers at international computing conference
- CMU-Q professor is key organizer for global NLP and Generative AI conference
- Carnegie Mellon Qatar Arabic debating team reaches USADC finals
- QBWA official highlights women's pivotal role in Qatar's progress
- First students of the Class of 2028 celebrate at CMU-Q campus

- QNB CEO shares insights at CMU-Q Dean's lecture series
- Dania Makki QTV interview on career readiness
- Dudley Reynolds regional interview on knowledge cities
- Art and academics merge at Education City

February 2024

- CMU-Q students publish federated learning research in IEEE Internet of Things Journal
- Urmila Rosario: The CMU-Q alumna behind Australia's World Cup success
- Class of 2008 grad appointed Chief of Museum and Heritage Development, Qatar Museums
- Carnegie Mellon Qatar LifeLines Hackathon fosters ethical innovation

March 2024

- CEO of Vodafone Qatar addresses CMU-Q on telecommunications and digital development
- Rukhsar Neyaz is a "Tartan on the Rise"
- Musab Popatia is a "Tartan on the Rise"
- Sabih Bin Wasi is a "Tartan on the Rise"
- CMU-Q develops region-specific business courses
- Carnegie Mellon Qatar honors 172 students for academic excellence
- Carnegie Mellon Qatar graduating seniors join the alumni network
- DPS Modern Indian School wins Carnegie Mellon Qatar Pi Day competition

April 2024

- Washington Semester Program sparks CMU-Q student's passion for international development
- Carnegie Mellon team is first to represent Qatar at programming world championship
- Bio sci students present research at international breast cancer conference

- Entrepreneurship course sparks idea for global health solution
- CMU-Q grad places first in Pitt Three Minute Thesis competition
- Students turn to 3D printing solutions to improve sustainability
- Largest CMU-Q graduating class has thrived with experiential learning
- Carnegie Mellon Qatar signs Sustainability Charter
- Carnegie Mellon Qatar celebrates newly admitted students
- Abdulrahman Darwish Fakhroo: Discovering a passion for understanding
- Diram Tabaa: Exploring opportunities to grow and learn

May 2024

- Muneera Al-Baker: Making a global impact
- Nada Al-Najar: Exploring the root causes of disease
- Gulnaz Serikbay: Thinking about the world in a different way
- Osman Mamoon Osman Mohamed: Embracing the Education City experience
- Carnegie Mellon Qatar celebrates largest graduating class in campus history
- Two CMU-Q graduates receive QF Excellence Awards
- Carnegie Mellon Qatar and Iberdrola Sign Memorandum of Understanding
- Christos Kapoutsis receives 2024 Meritorious Teaching Award
- First Carnegie Mellon Qatar leadership program makes big impact across continents
- Education Above All Foundation CEO Fahad Al-Sulaiti highlights education and innovation in developing countries at Carnegie Mellon lecture

June 2024

- CMU-Q's Adviti Naik develops new course in precision medicine
- Hamad Bin Jassim Center for Computer Science Education organises 9th annual Alice Programming Competition
- CMU-Q symposium showcases research projects in key areas

About Carnegie Mellon University in Qatar

Carnegie Mellon University set its own course with programs that inspire creativity and collaboration. A private, top-ranked and global university, Carnegie Mellon looks beyond the traditional borders of the university campus to have a transformative impact locally, nationally, and globally. In 2004, CMU began a partnership with Qatar Foundation to bring this unique educational experience to the Middle East.

For 20 years, Carnegie Mellon University in Qatar has provided a world-class education in the heart of Education City. More than 1300 graduates have completed their education at CMU-Q, and more than 450 students are currently pursuing studies in biological sciences, business administration, computer science and information systems.

As the CMU-Q alumni network grows, so does the impact that we have on Qatar and the world. Our graduates work at top organizations and innovative startups. They influence government policy, analyze big data, bring culture and the arts to the community, and inspire young people to learn and innovate. They are researchers, creators, entrepreneurs, analysts and educators, and they are working to improve the world around them.
